Experiences

2020 - now

3 years 4 months
London, UK
Brussels, Belgium

Levi Strauss & Co. - Global Data/Feature Engineering Manager (Americas, Asia, and Europe)

- Hired, led, and managed a results-driven, collaborative, and inclusive [engineering team of +15](#) from +10 nationalities that support +10 live AI projects driving a \$xx.x million annualized profits
- Responsible for short-term/long-term technical strategy, and led the team to build scalable, performant, [reliable](#), extensible, and reusable [data solutions](#)
- Acted as a technical lead coaching and inspiring craftsmanship, innovation, and adoption of the latest Data and AI [best practices](#) (AI Garment Design via Computer Vision, and AI Fashion Forecast via Natural Language Processing)
- Continuously improved [Agile ways of working](#) to build the right things at the right time in the right way
- Partnered with leaders, product managers, data scientists, and other stakeholders to identify and deliver technical solutions that can solve common problems across the enterprise

2019 - 2020

1 year 3 months
Stockholm, Sweden

H&M Group - Senior Data Engineer

- Created, maintained, and improved [+200 ETL pipelines](#) using On-premise and Cloud data source
- Initiated and contributed to [standards and best practices](#) of a data team
- Acted as Project Manager for Agile fast delivery and team learning sessions
- Engaged with business stakeholders, collaborated with data scientists, and provided data engineering expertise

2017 - 2019

2 years 2 months
Paris, France

Softbank Robotics Europe - Senior Data Engineer

- Designed and developed Softbank Serverless ETL project [Dataflow V2](#)
- Re-designed and developed Softbank ETL project Dataflow V1 to process ~100 GB of IoT data daily
- Provided with architecture, design, and proof of concept (PoC) for Softbank visualization [KPI Dashboard](#)
- Improved data quality monitoring tool for Softbank Data Lake

2013 - 2016

4 years
Paris, France

Kpsule - Lead Data Engineer, Lead Full Stack Developer

- Developed Kpsule ETL project [HDFS-K](#)
- Designed and developed Kpsule visualization [KPI Dashboard](#)

2012

6 months

Amadeus – Intern Junior Data Scientist

- Optimized [airline scheduling algorithms](#)

Education

Université Paris 11

2011-2012

Master of Engineering in Applied Mathematics Engineering

Université Paris 11 has been replaced by Université Paris-Saclay in 2020

Global ranking 16th by ARWU 2022

TELECOM Paristech

2009-2011

Master of Science in Communication and Networking Security

Telecom ParisTech is part of the Institut Polytechnique de Paris (IP)

Global ranking 38th by QS 2024

Technical skills

- Data Engineering
- Apache Spark
- Databricks
- Data Warehousing
- Data Catalog
- Git
- ElasticSearch
- Feature Store
- Hadoop/HDFS
- Google Cloud Platform (GCP)
- SQL
- Sphinx
- Docker
- Jupyter notebook
- Python
- Data Mesh
- Amazon Web Services (AWS)
- Agile Methodologies
- CICD
- Dataiku DSS
- Django
- Extract, Transform, Load (ETL)
- Apache Airflow
- Microsoft Azure
- Software Engineering
- Jenkins
- Pandas
- Cloud Migration

Leadership skills

- Stakeholders Request Mgmt.
- Agile Mgmt.
- Conflict Mgmt.
- Hiring & Building Engineer Teams
- Relationship & Priority Mgmt.
- Continuous Improvement process
- Driving Cross-Functional Teams/Processes
- Diversity & Inclusion Team Culture Build
- Managing Under-performance
